How to use this list

1. Find the make, then the model and year range. Where the plug changed with the engine or model update, the engine column says which.

2. The plug number gives the part number for each controller: Throttle Master **EDTM**###, Smart Throttle **EDST**###, Smart Throttle Lite **EDSS**### (for example plug 201 = EDTM201 / EDST201 / EDSS201).

3. "Same plug" numbers share one harness, so any of them can be supplied.

4. Lines marked **order in** use a plug we don't normally keep in stock. Ask us for a lead time.

5. Not sure? Send us the rego or plate number, or the VIN, or a photo of the accelerator pedal plug, and we'll confirm the fit before you order.
